

## Senior Engineering Leader

**Department:** Engineering

**Location:** Wales, WI

**Contact:** jobs@printfoam.com

---

Igneous is developing a disruptive vat photopolymerization printing process. Due to the confidential nature of our product development, we cannot always post specific details for these roles. If you are an engineering leader and interested in developing technically demanding and disruptive products then let's get in touch.

**Engineering Leaders** at Igneous come from all of the major engineering disciplines – mechanical, electrical, software, materials, optics, and more. We are looking for product-driven thinkers who make excellent technical decisions, grow and inspire the people around them, and seamlessly communicate across teams.

We are looking for people who have leadership experience in one or more of the following:

- Product development
- Managing and building teams
- Complex project management
- Technical depth in your field

If this could be you, apply and tell us more.

We are an equal opportunity employer and value diversity at our company. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status. Even if you don't check every box, but see yourself contributing, please apply. Help us build an inclusive community that will change the face of 3D printing.
